

OSHA **Assistance for the** **Maritime Industry - Outreach Training** Course #5400

May 4 through May 7, 2010 Portsmouth, VA

Now is your opportunity to complete the classic OSHA Maritime Shipyard training recognizing your career experience and your accomplishment. This OSHA Maritime Outreach course #5400 contains the latest training aids and opportunities to demonstrate your skills at training.

Prerequisites for entry into this course:

- Two years maritime industry experience and at least one of the following:
- Two years of occupational safety and health experience (with a broad focus) in any industry.
- A degree in occupational safety and health from an accredited college or university.
- Certification as an Associate Safety Professional (ASP), Certified Safety Professional (CSP), or Certified Industrial Hygienist (CIH), Certified Marine Chemist (CMC), or Certified Safety Health Manager (CSHM)

You will be able to conduct the OSHA Maritime Shipyard courses 10 and 30 hours (#7615 and #7635), accepted by BAE Systems and Northrop Grumman Shipbuilding Newport News. Authorization is good for four years and easily updated thereafter.
