

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**

**Notice With Respect to List of
Countries Denying Fair Market
Opportunities for Government-Funded
Airport Construction Projects**

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: Pursuant to section 533 of the Airport and Airway Improvement Act of 1982, as amended (49 U.S.C. 50104), the United States Trade Representative (USTR) has determined not to list any countries as denying fair market opportunities for U.S. products, suppliers, or bidders in foreign government-funded airport construction projects.

DATES: *Effective Date:* Date of publication.

FOR FURTHER INFORMATION CONTACT: Jean Heilman Grier, Senior Procurement Negotiator, Office of the United States Trade Representative, (202) 395-9476, or Maria Pagan, Associate General Counsel, Office of the United States Trade Representative, (202) 395-9626.

SUPPLEMENTARY INFORMATION: Section 533 of the Airport and Airway Improvement Act of 1982, as amended by section 115 of the Airport and Airway Safety and Capacity Expansion Act of 1987, Public Law 100-223 (codified at 49 U.S.C. 50104) (“the Act”), requires USTR to decide whether any foreign country has denied fair market opportunities to U.S. products, suppliers, or bidders in connection with airport construction projects of \$500,000 or more that are funded in whole or in part by the government of such country. The list of such countries must be published in the **Federal Register**.

USTR has not received any complaints or other information that indicates that U.S. products, suppliers, or bidders are being denied fair market opportunities in such airport construction projects. As a consequence, for purposes of the Act, USTR has decided not to list any countries as denying fair market opportunities for U.S. products, suppliers, or bidders in foreign government-funded airport construction projects.

Ronald Kirk,

United States Trade Representative.

BILLING CODE 3190-W1-P

DEPARTMENT OF TRANSPORTATION

Maritime Administration

**Assistance to Small Shipyards Grant
Program; Catalog of Federal Domestic
Assistance Number: 20.814**

AGENCY: Maritime Administration, Department of Transportation, Office of Shipyards and Marine Engineering.

ACTION: Notice.

SUMMARY: There is currently \$9,800,000 available for grants for capital and related improvements for qualified small shipyard facilities that will be effective in fostering efficiency, competitive operations, and quality ship construction, repair, and reconfiguration.

DATES: *Key Dates:* The period for submitting grant applications, as mandated by statute, commenced on April 15, 2011 and will terminate on June 14, 2011. The applications must be received by the Maritime Administration by 5 p.m. EDT on June 14, 2011. Applications received later than this time will not be considered. The Maritime Administration intends to award grants no later than August 15, 2011.

FOR FURTHER INFORMATION CONTACT: Office of Shipyards and Marine Engineering, Maritime Administration, Room W21-318, 1200 New Jersey Ave., SE., Washington, DC 20590; phone: (202) 366-5737; or fax: (202) 366-6988.

SUPPLEMENTARY INFORMATION:

Funding Opportunity: Section 54101 of Title 46, United States Code, and the Department of Defense and Full-Year Continuing Appropriations Act, 2011, 2011 Public Law 112-10 provide that the Maritime Administration shall establish an assistance program for small shipyards. Under this program, there is currently \$9,800,000 available for grants for capital and related improvements for qualified small shipyard facilities that will be effective in fostering efficiency, competitive operations, and quality ship construction, repair, and reconfiguration. (\$200,000 of the \$10,000,000 appropriated for the program is reserved for program administration.) Such grants may not be used to construct buildings or other physical facilities or to acquire land unless such use is specifically approved by the Maritime Administration as being consistent with and supplemental to capital and related infrastructure improvements. Grant funds may also be used for maritime training programs to foster technical skills and operational

productivity in communities whose economies are related to or dependent upon the maritime industry. Grants for such training programs may only be awarded to “Eligible Applicants” as described below, but training programs can be established through vendors to such applicants.

Award Information: The Maritime Administration intends to award the full amount of the available funding through grants to the extent that there are worthy applications. No more than 25 percent of the funds available will be awarded to any small shipyard facility in one geographic location that has more than 600 production employees. The Maritime Administration will seek to obtain the maximum benefit from the available funding by awarding grants for as many of the most worthy projects as possible. The Maritime Administration may partially fund applications by selecting parts of a total project. The start date and period of performance for each award will depend on the specific project and must be agreed to by the Maritime Administration.

Eligibility Information: 1. Eligible Applicants—the statutes referenced in “Funding Opportunity” above provide that shipyards can apply for grants. The small shipyard facility for which a grant is sought is defined as a shipyard facility in a single geographical location, located in or near a maritime community, which does not have more than 1200 employees. The applicant must be the operating entity of the shipyard facility. The shipyard facility must construct, repair, or reconfigure vessels 40 ft. in length or greater, for commercial or government use. 2. Eligible Projects—capital and related improvement projects that will be effective in fostering efficiency, competitive operations, and quality ship construction, repair, and reconfiguration; and training projects that will be effective in fostering employee skills and enhancing productivity. For capital improvement projects, all items proposed for funding must be new and to be owned by the applicant. For both capital improvement and training projects, all project costs, including the recipient’s share, must be incurred after the date of the grant agreement.

Matching Requirements: The Federal funds for any eligible project will not exceed 75 percent of the total cost of such project. The remaining portion of the cost shall be paid in funds from or on behalf of the recipient. The applicant is required to submit detailed financial statements and supporting documentation demonstrating how and when such required matching funds are

proposed to be provided as described below. The recipient's entire matching requirement must be paid prior to payment of any federal funds for the project. However, for good cause shown, the Maritime Administrator may waive the matching requirement in whole or in part, if the Administrator determines that a proposed project merits support and cannot be undertaken without a higher percentage of federal financial assistance.

Application: An application must be filed on standard Form SF-424, which can be found on the Internet at Marad.dot.gov. Although the form is available electronically, the application must be filed in hard copy as indicated below due to the amount of information requested. A shipyard facility in a single geographic location applying for multiple projects must do so in a single application. The application for a grant must include all of the following information as an addendum to Form SF-424. The information should be organized in sections as described below:

Section 1: A description of the shipyard including (a) location of the shipyard; (b) a description of the shipyard facilities; (c) years in operation; (d) ownership; (e) customer base; (f) current order book, including type of work; (g) vessels delivered (or major projects) over last 5 years, and (h) Web site address, if any.

Section 2: For each project proposed for funding, the following:

(a) A comprehensive, detailed description of the project including a statement of whether the project will replace existing equipment, and if so the disposition of the replaced equipment.

(b) A description of the need for the project in relation to shipyard operations and business plan and an explanation of how the project will fulfill this need.

(c) An quantitative analysis demonstrating how the project will be effective in fostering efficiency, competitive operations, and quality ship construction, repair, or reconfiguration (for capital improvement projects), or how the project will be effective in fostering employee skills and enhancing productivity (for training projects). The analysis should quantify the benefits of the project in terms of man-hours saved, dollars saved, percentages, or other meaningful metrics. The methodology of the analysis should be explained, with identification of and justification for assumptions used.

(d) A detailed methodology and timeline for implementing the project.

(e) A detailed itemization of the cost of the project, together with supporting

documentation, including current vendor quotes and estimates of installation costs.

(f) A statement explaining whether any elements of the project require action under the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) or require any licenses or permits.

Items 2(a) through 2(f) should be repeated, in order, for each separate project included in the application.

Section 3: A table with a prioritized list of projects, their respective total costs, and Government portion (in dollars) for each.

Section 4: A description of existing programs or arrangements, if any, which will be used to supplement or leverage the federal grant assistance.

Section 5: Special economic circumstances and conditions, if any, of the maritime community in which the shipyard is located (beyond that which is reflected in the unemployment rate of the county in which the shipyard is located and whether that county is an economically distressed area, as defined by 42 U.S.C. 3161).

Section 6: Shipyard company officer's certification of each of the following items:

(a) That the shipyard facility for which a grant is sought is located in a single geographical location in or near a maritime community and (i) the shipyard facility has no more than 600 production employees, or (ii) the shipyard facility has more than 600 production employees, but fewer than 1200 production employees (the shipyard officer must certify to one or the other of (i) or (ii));

(b) That the applicant has the authority to carry out the proposed project; and

(c) Certification in accordance with the Department of Transportation's regulation restricting lobbying, 49 CFR part 20, that the applicant has not, and will not, make any prohibited payments out of the requested grant.

Certifications are not required to be notarized.

Section 7: Unique identifier of shipyard's parent company (when applicable): Data Universal Numbering System (DUNS + 4 number) (when applicable).

Section 8: 2009 or 2010 (if available) year-end, audited, reviewed or compiled financial statements prepared by a certified public accountant, according to U.S. generally accepted accounting principles, not on an income tax basis. September 30, 2010 financial statements prepared by the applicant entity if December 31, 2010 CPA-prepared

statements are not available. Do not provide tax returns.

Section 9: Statement regarding the relationship between applicants and any parents, subsidiaries, or affiliates, if any such entity is going to provide a portion of matching funds.

Section 10: Evidence documenting applicant's ability to satisfy the proposed matching fund requirement (loan agreement, commitment from investors, cash on balance sheet, etc.) and in the times outlined in 2(d) above.

Section 11: Pro-forma financial statements reflecting (a) September 30, or December 31, 2010 financial condition; (b) effect on balance sheet of grant and matching funds (i.e. a decrease in cash or increase in debt, additional equity, or an increase in fixed assets); and (c) impact on applicant entity's projected financial condition (balance sheet) by completion of proposed project, showing that applicant will have sufficient financial resources to remain in business.

Section 12: Statement whether during the past five years, the applicant or any predecessor or related entity has been in bankruptcy or in reorganization under Chapter 11 of the Bankruptcy Code, or in any insolvency or reorganization proceedings, and whether any substantial property of the applicant or any predecessor or related entity has been acquired in any such proceeding or has been subject to foreclosure or receivership during such period. If so, give details.

Additional information may be requested as deemed necessary by the Maritime Administration in order to facilitate and complete its review of the application. If such information is not provided, the Maritime Administration may deem the application incomplete and cease processing it.

Where to File Application: Submit an original copy and one additional paper copy of the application and two CDs each containing a complete electronic version of the paper copy in PDF format to: Associate Administrator for Business and Finance Development, Room W21-318, Maritime Administration, 1200 New Jersey Ave., SE., Washington, DC 20590. Submissions should be sent by express delivery service.

Evaluation of Applications: The Maritime Administration will evaluate the applications on the basis of how well the project for which a grant is requested would be effective in fostering efficiency, competitive operations, and quality ship construction, repair, and reconfiguration (for capital improvement projects) or how well the project for which a grant is requested would be effective in fostering employee

skills and enhancing productivity (for training projects), and the economic circumstances and conditions of the surrounding community. The economic circumstances and conditions description will be based on the unemployment rate of the county in which the shipyard is located and whether that county is an economically distressed area, supplemented by any special economic circumstances and conditions identified by the applicant. The Maritime Administration will award grants in its sole discretion in such amounts and under such conditions it determines will best further the statutory purposes of the small shipyard grant program. Projects that may require additional environmental assessments such as those including waterside improvements (dredging, bulkheading, pier work, pilings, etc.) will not be considered for funding. Preference will be given to funding applications: (1) That propose matching funds greater than a 25% share of the project; (2) that impact existing operations and/or product lines rather than expand the capabilities of the shipyard into new product lines or capabilities; and (3) that result in a geographic diversity of grant recipients.

Potential applicants are advised that it is expected, based on past experience, that application requests will far exceed the funds available and that only a small percentage of applications will be funded. It is anticipated that about 10 applications will be selected for funding with an average grant amount of about \$1 million.

Conditions Attached to Awards: The grant agreement will set out the records to be maintained by the recipient that must be available for review and audit by the Maritime Administration, as well as any other conditions and requirements.

Dated: April 26, 2011.

By Order of the Maritime Administrator.

Murray Bloom,

Acting Secretary, Maritime Administration.

BILLING CODE P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Docket No. FD 35485]

Nittany & Bald Eagle Railroad Company—Temporary Trackage Rights Exemption—Norfolk Southern Railway Company

Norfolk Southern Railway Company (NSR), pursuant to a written trackage rights agreement dated February 25, 2011, has agreed to grant nonexclusive overhead temporary trackage rights to Nittany & Bald Eagle Railroad Company (N&BE) over a portion of NSR's line of railroad between Lock Haven, PA (milepost BR 194.2), and Driftwood, PA (milepost BR 139.2), a distance of 55 miles.¹

The transaction is scheduled to be consummated on or after May 15, 2011, the effective date of the exemption (30 days after the exemption was filed). The temporary trackage rights are scheduled to expire on December 15, 2011. The purpose of the temporary trackage rights is to allow N&BE to operate bridge train service for temporary, seasonal traffic originating on N&BE for delivery to an off-line destination.

As a condition to this exemption, any employees affected by the acquisition of the temporary trackage rights will be protected by the conditions imposed in *Norfolk & Western Railway—Trackage Rights—Burlington Northern, Inc.*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Railway, Inc.—Lease & Operate—California Western Railroad*, 360 I.C.C. 653 (1980), and any employees affected by the discontinuance of those trackage rights will be protected by the conditions set out in *Oregon Short Line Railroad & The Union Pacific Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979).

This notice is filed under 49 CFR 1180.2(d)(8). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction. Petitions for stay must be filed no later than May 6, 2011 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD

¹ A redacted, executed trackage rights agreement between NSR and N&BE was filed with the notice of exemption. The unredacted version was concurrently filed under seal along with a motion for protective order, which will be addressed in a separate decision.

35485, must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Richard R. Wilson, 518 N. Center Street, Suite 1, Ebensburg, PA 15931.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: April 26, 2011.

By the Board, Rachel D. Campbell, Director, Office of Proceedings.

Andrea Pope-Matheson,
Clearance Clerk.

BILLING CODE 4915-01-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Docket No. FD 35492]

Atlantic and Western Railway, Limited Partnership—Trackage Rights Exemption—Norfolk Southern Railway Company

Pursuant to a written trackage rights agreement, Norfolk Southern Railway Company (NSR) has agreed to grant limited local trackage rights to Atlantic and Western Railway, Limited Partnership (ATW)¹ over approximately 13.8 miles of NSR's rail line between milepost NS-279.9, NSR's connection with ATW, at Cumnock, NC and milepost 266.1 at Brickhaven, NC (the line).²

The transaction is scheduled to be consummated on May 13, 2011, the effective date of the exemption (30 days after the exemption was filed).

The purpose of the transaction is to allow ATW to extend its existing rail service to the three customers located on the line.

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk & Western Railway—Trackage Rights—Burlington Northern, Inc.*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Railway—Lease and Operate—*

¹ By letter filed April 15, 2011, ATW corrects two places in its initial filing in which its corporate name was incorrectly identified as Atlantic and Western Railway Company, Limited Partnership.

² These trackage rights also include sufficient head/tail room at both ends of the line to safely conduct operations. According to the agreement, ATW's trackage rights are limited to providing local service to Noble Oil at Colon, NC, Lee Brick & Tile at Leebrick, NC, and General Shale Brick at Brickhaven, or their respective successors. In addition, the written trackage agreement does not permit ATW to handle coal.
